

Weeding weekend at Kiepersol Kloof 22-23 June.

This weekend's weeding will be a good way for people to get to know a part of the Magaliesberg not often visited. Kiepersol Kloof is upstream from Junction Pool at Tonquani. It lies on the Lude/Cooke land south of Tonquani but the stream actually starts in Easter Kloof land further south. It is a beautiful area.

We will get permission to drive up [4wd only - volunteers please!!] and camp where the track ends at the cars, on Boulder Kloof land [ONLY for conservation meets!]

The weeding target will be crofton weed; it grows in the wetland there [serious threat to Tonquani stream!] and higher upstream in a small narrow channel to its source.

We will meet at 8h30 on Saturday at the normal Calabash parking and leave the non-4wd cars there. Please let me know which day you will be coming. Some will be going up on Sunday. We need to know who is coming and when, please.

You would need water-sandals or old boots, gumboots, garden gloves, crofton cropper tools [I have some extras for R50] or split-point garden tool and small fork.

Please contact me as soon as you can - 082 451 9582 or ocneser@gmail.com.
